GUINEA PIG care sheet

Always wash your hands after handling your guinea pig or its housing to help maintain sanitary conditions.

CAGING NEEDED

- Cages should be approximately 30"L x 15"W x 15"H. All cages should be escape proof with a solid bottom to prevent leg and feet injuries. 
- Guinea Pigs also like an area to hide. 
- Shavings such as aspen, pine or pelleted or recycled paper is recommended. No cedar bedding. Provide 1-2 inches of bedding and change regularly to provide a clean and healthy environment.

ENVIRONMENT

Avoid extreme temperatures. Guinea pigs acclimate well to normal household temperatures. Do not put your guinea pig in direct sunlight or a drafty area.

DIET

- Guinea Pig Pellets and Timothy Hay. 
- 30-50 mg of vitamin C is required daily. This may be obtained from certain fruits and vegetables such as kale, parsley, spinach, bell peppers, broccoli, tomatoes, kiwi, oranges or a vitamin C supplement. Vegetables not eaten within 24 hours should be discarded. 
- Small amounts of treats may be offered.

WATER NEEDS

Provide fresh, clean, chlorine-free water daily.

MISC. INFORMATION

- Provide chew sticks as your guinea pig's incisor teeth constantly grow. 
- Guinea Pigs prefer a routine (play, sleep, eating, etc.) 
- Guinea Pigs are social and can be kept with other guinea pigs as long as there is plenty of room - watch for aggression!

AVERAGE SIZE

8 - 11 inches long.

LIFE SPAN

8 years.
